# Kenneth Joshua O. Reaño

✉ reanokennethjoshua11@gmail.com  📞 +699957119964  🌐 github.com/gioshwua  👤 linkedin.com/in/gioshwua

## Technical Skills

- **Languages:** Javascript, Typescript, HTML, CSS, Java, Python, C++, Bash
- **Frameworks:** React JS/TS, Angular JS, Ionic
- **Libraries:** MUI (Materia UI), Tailwind
- **Dev Tools:** Git, Github, Gitlab, JIRA, Linux User, Slack, Notion, Workbench
- **Databases:** Firebase, MySQL
- **Cloud:** Firebase
- **Others:** Office skills (Excel, Word, etc.), SEO (Search Engine Optimization), Project Management

## Work Experience

**Junior Software Developer**                                    (May 2023- May 2024)

*CP Health Innovations*

- Developed user-friendly frontend interfaces for a collaborative health program management system, enhancing efficiency in delivering healthcare services for frontline workers.
- Integrated advanced data analytics tools to monitor and evaluate program outcomes, providing actionable insights for continuous improvement.
- Conducted extensive user testing and gathered feedback to refine the user experience, ensuring the platform was intuitive and accessible for all users.
- Collaborated with a multidisciplinary team, including UX/UI designers, backend developers, and project managers, to ensure cohesive and efficient development processes.
- Improved the loading speed and performance of the web application by optimizing code, minimizing dependencies, and implementing lazy loading techniques.

## Commisions and Projects

**Integrated Recognition and Intelligent Surveillance (IRIS)**          (November 2023- April 2024)
- Enhance lab safety effortlessly with our web app. Monitor human activity, equipment, and ensure compliance with PPE usage in real-time.

**Student Violation System**                                            (August 2023)
- Developed a comprehensive repository system at BSU Alangilan Campus to track and record student violations of school regulations.

**University Dormitory Billing System**                          (January 2023 - March 2023)
- Calculates electricity and water bill of the students staying at school dormitory

**React-Firebase CRUD**                                            (February 2023)
- A project demonstrating CRUD operations using Firebase as the backend/database and React as the frontend, getting to understand how the backend works.

**Alumni Web and Mobile App**                              (August 2022 - December 2022)
- An alumni app project by our team that can be used as a future reference for the university's alumni app. This alumni app includes the client side (for the alumni) and administrators' that is made from bottom up.

## Awards

- **Top 9** Overall individual Ranking in Regional Programming Competition in LPU Laguna
- **3rd runner up** in Kadakareer Business Challenge Hackathon
- Consistent **Dean's Lister** (2020-2024)

## Education

**Bachelor of Science in Computer Science**

**Batangas State University**

**Grades:** 1.53 GWA **(Cum Laude)**

**Course Works:** Data Structure and Algorithm, Object Oriented Programming, Software Engineering, Machine Learning, Information Management

## Character References
